**II. New Business**

SIP Update-all areas of focus were touched upon in regards to progress in the 2024-2025 School Improvement Plan. Area of focus #1-more collaboration will continue into 2025. With the completion of training on the new literacy curriculum, now teachers are able to shift their focus to actual collaboration with fellow educators on ideas and best practices. Exciting things are happening as teachers adopt new practices and work together in more consistent weekly meetings with each other. Area of focus #2-excited about the re-appearance of the CES school store to help reach students on behavioral/academic/social levels with the new entrepreneurial tool. Area of focus #3-with the continued integration of journaling and STEAM concepts into all aspects of learning, teachers are seeing a spike in interest with writing. Journals are becoming more wide-spread and common-practice, supporting evidence that content-based writing is a powerful tool.
