

CVA

The Cartersville Virtual Academy is a 100% online program designed to meet the needs of students who complete their work online. Students in the Cartersville Virtual Academy will have a normal daily instructional schedule, earn grades, and receive timely teacher feedback in response to course assignments. Teachers experienced in online platforms and virtual instruction will help and support student engagement using a variety of live and pre-recorded standards-based age-appropriate content.

An application process will approve student entry into CVA for the school year. Admittance into CVA is based solely on the student's capacity to progress in an online learning model. We will be reviewing students' past attendance records, academic performance, and success in previous online coursework to determine their readiness for this style of learning.

The Cartersville Virtual Academy is not a separate entity or school, but rather an extension of each school site.

THIS PROGRAM IS FOR STUDENTS WHO:

- Are in 9th – 12th grade
- Meet academic, attendance, and discipline criteria for program
