NEW BUSINESS

Empowering CANES – new program to target our Hispanic students and their families. Students and parents are being held back by cultural differences. This program is working to bridge that gap

- Current enrollment is enough to fill up one classroom.
- By the end of October, it will be opened to at risk students as well
- English speaking classes are full

Human Connectivity – Mrs. Tierce expressed her concern for our lack of human connectivity. Are we losing engagement with families? She asked for feedback, good or bad as to how she can address this. Is CHS doing good in that area? How could it improve?

Suggested ideas included meet and greet by department throughout the year to highlight student work, projects, etc

Cell Phones – Mrs. Tierce expressed concern about the misuse of cell phones among students. Students do not understand the legality and consequences of choices they make with their cell phones.
